In order to install an aboveground tank system that is regulated under [ATCP 93](#), you must comply with one of the following:

- Hold a certification issued by DATCP.
- Hold a registration as a professional engineer and are competent in the engineering methods and requirements in Wisconsin for designing and installing storage tank systems for flammable, combustible or hazardous liquids.
- Work under the direct supervision of a person who holds the required certification or registration and who is responsible for the installation.

A person who installs or supervises the installation of tank systems as a certified aboveground tank system installer must be present at the job site for all of the following activities:

- Pre-installation tank system testing
- Inspection and repair of coatings
- Placement of tanks
- Installation and testing of all connections and tank-related piping including vapor recovery, vents and supply pipes
- Installation of monitoring or leak detection devices
- Installation of pumps
- Installation of any underground piping

To initially obtain an Aboveground Tank System Installer Certification, you must:

- Apply to take the exam. The exam application must be submitted along with the \$35 fee 30 days prior to the exam date. You must score at least 70% on the exam to pass.
- After passing the exam, submit the following items within 3 months of the date we notify you of your passing exam score:
 - Aboveground Tank System Installer application
 - \$20 application fee (not applicable to electronic applications or renewals)
 - \$50 certification fee
 - Social Security Number Request form

If you are a veteran, you may be eligible for a DVA voucher to cover the initial application and certification fees. Please contact the DVA at 1-800-WisVets or online at www.WisVets.com for more information.

Your Aboveground Tank System Installer certification is valid for 2 years from the date of issue. To renew your certification, you must:

- Submit the Aboveground Tank System Installer application and the \$50 certification fee prior to the expiration of your certification. Late applications are not accepted. If you do not submit your renewal prior to the expiration date, you must apply for a new certification.
- In order to renew your certification without having to re-take the exam, you are required to obtain 12 continuing education credits from a DATCP approved provider prior to the expiration of your certification. For more information on how to obtain continuing education credits, visit our website here: http://datcp.wi.gov/Consumer/Weights_and_Measures/Tank_Contractor_Certification/index.aspx
