

Nutrient Management Planning Workbook

USDA-NRSC 590 Nutrient Management Standard for Wisconsin

SnapPlus Plan Supplement

To complete a practice nutrient management plan using the Nutrient Management Plan Workbook and the SnapPlus program, use the supplemental information provided below:

Address:

Hilltop Acres
Fred Johnson
3895 Farmland Rd
Oatville, WI 51515

Manure Credits:

Do not use 2nd or 3rd yr manure credits

Crops to use:

Alfalfa
Corn grain
Corn silage
Oatlage w/Alfalfa Seeding Spring
Winter wheat

Concentrated flow channel protections:

All concentrated flow channels on Hilltop Acres are currently protected with grass waterways

Use the following animal sizes:

Dairy Lactating Cows 1200 lbs
Dairy Dry Cows 1200 lbs
Dairy Heifer 1000 lbs
Dairy Heifer 750 lbs
Dairy Calf 250 lbs

See the **Cropping Plan on page 9** along with the **Crop Rotations on page 1**; numbers in parenthesis listed after the crop in the Cropping Plan indicate the year in the rotation as listed in the Crop Rotations.

Soil samples are available electronically
